COLUMBUS, O., Aug. 31.—Gov. Cox, Democratic presidential candidate, in a statement today declared as "absolutely untrue and false" statements attributed to Will H. Hays, chairman of the U. S. Commission on Crime Prevention.

Mr. Smith was one of a number of applicants for the place and after much correspondence he was advised to return to Memphis for a conference. There is every indication that he will be retained, as he has been highly recommended as an expert in recreation and community work.

The city recreation work is on the eve of a complete reorganization. Both the white and negro departments will be brought up to requirements and ideas of the new director. All members of the negro recreation department have been discharged effective Sept. 1, and the community centers have been closed temporarily.

Work among the negroes will, however, be thoroughly reorganized as soon as the new director takes office.

J. T. Williamson, chairman of the city commission, who has been aware of the Hays charges, said:

Gov. Cox again referred to what purported to be an official document issued for the senate subcommittee investigating campaign expenditures, that it was not the policy of the Republican committee to obtain contributions in excess of \$1,000.

The governor declared that all state chairmen should be summoned by the committee to bring all documents relating to money raising with them.

"The spotlight should be thrown on the activities of all political parties and it should be kept more intensively until

election day," he added.

"Enough is known now, through records from Mr. Hays' headquarters, to convince the public that as the head of a great organization he has deceived the public and at an official hearing defied the truth."
